NURSERY STOCK DEFINITION

Nursery Stock means and includes, whether in field or container, all trees, shrubs, vines, rosebushes, cuttings, grafts, scions, fruit pits, herbaceous plants, evergreens and other ornamental trees, bushes, collected wild plants and trees, decorative plants, flowering plants, bedding plants, vegetable plants for transplanting, aquatic plants, roots, corms, rhizomes, bulbs, and ferns grown for propagation, all packing materials, and other things used in the handling, storing, crating, and shipping of nursery stock. "Nursery stock" does not include cut Christmas trees, wreaths, seeds, agronomic crops, cut or dried flowers, and herbs.

GENERAL SHIPPING REQUIREMENTS

Each shipment of nursery stock entering Oklahoma must be accompanied by a valid nursery certificate of inspection indicating that the shipment has been inspected by the state of origin and meets the inspection requirements of Oklahoma. Plants originating from Imported Fire Ant infested areas must be accompanied by a certificate indicating treatment for Imported Fire Ant.

OK - 2

NOXIOUS WEEDS

<i>Aegilops cylindrica</i>	Goatgrass, Jointed
<i>Agropyron repens</i>	Quackgrass
<i>Agrostemma githago</i>	Corncockle
<i>Allium</i> spp.	Onion, Wild or Garlic
<i>Avena fatua</i> , <i>Avena</i> , <i>Avenasterilis</i> and other	Oat, Wild
wild, non-cultivated <i>Avena</i> spp.	
<i>Brassica</i> spp.	Mustard, Wild
<i>Bromus secalinus</i>	Cheat or Chess
<i>Calonyction muricatum</i>	Moonflower or Giant Morningglory
<i>Cardiospermum halicacabum</i>	Balloonvine
<i>Carduus nutans</i> L.....	Musk Thistle
<i>Centaurea picris</i>	Knapweed, Russian
<i>Cardaria draba</i>	Whitetop or Hoary Cress
<i>Cassia obtusifolia</i>	Sicklepod
<i>Cirsium arvense</i>	Thistle, Canada
<i>Convolvulus arvensis</i>	Bindweed, Field
<i>Convolvulus sepium</i>	Bindweed, Hedge
<i>Cuscuta</i> spp.....	Dodder
<i>Cyperus rotundus</i>	Nutgrass
<i>Eclipta alba</i>	Yerba De Tajo
<i>Glaucium corniculatum</i>	Red Horned Poppy
<i>Helianthus ciliaris</i>	Blueweed, Texas
<i>Ipomea</i> spp.	Morningglory, Wild
<i>Lolium temulentum</i>	Darnel
<i>Nassella trichotoma</i>	Serrated Tussock
<i>Plantago lanceolata</i>	Plantain, Bracted
<i>Plantago lanceolata</i>	Plantain, Buckhorn
<i>Polygonum convolvulus</i>	Buckwheat, Wild
<i>Rumex</i> spp.	Dock
<i>Rumex acetosella</i>	Sorrel, Sheep or Red
<i>Setaria faberi</i>	Foxtail, Giant
<i>Solanum carolinense</i>	Horsenettle
<i>Sorghum halepense</i>	Johnsongrass
<i>Solanum elaeagnifolium</i>	Nightshade, Purple
<i>Xanthium</i> spp.....	Cocklebur

QUARANTINES OR ADDITIONAL REQUIREMENTS

PEACH MOSAIC DISEASE QUARANTINE - Revoked

SWEET POTATO WEEVIL QUARANTINE - Revoked

PEANUT STUNT DISEASE QUARANTINE - Revoked

IRISH POTATO SEED REGULATION – Revoked

PINK BOLLWORM QUARANTINE - Revoked

IMPORTED FIRE ANT QUARANTINE

PEST: Imported Fire Ant, *Solenopsis invicta*.

STATES REGULATED: AL, AR, FL, GA, LA, MS, NC, OK counties (Bryan, Carter, Choctaw, Comanche, Jefferson, Johnston, Love, Marshall, and McCurtain), Puerto Rico, SC, and TX.

MATERIALS REGULATED: Soil, plants with soil attached, grass sod, used mechanized soil-moving equipment, hay and straw, and any other products, articles, or other means of conveyance, of any character whatever, not covered above.

RESTRICTIONS: Certificates must indicate that the regulated articles are free of all living stages of the Imported Fire Ant. Federal certificates or permits may be used in lieu of certificate of state origin if the interstate shipper provides a copy of a valid inspection certificate from the state of origin.

BOLL WEEVIL QUARANTINE

PEST: Boll Weevil, *Anthonomus grandis* Boheman, in any living state of development.

STATES REGULATED: Any state other than Oklahoma or any portion of that state which is infested with the boll weevil.

MATERIALS REGULATED: The boll weevil in any living state of development, seed cotton, gin trash, cotton production equipment; and other products, articles or means of conveyance, or any character not covered above that present a hazard of spreading the boll weevil.

KARNAL BUNT EMERGENCY QUARANTINE

PEST: Karnal Bunt, *Tilletia indica* Mitra.

STATES REGULATED: Texas (Throckmorton, Young, McCulloch, and San Saba counties). Amended June 19, 2001 to include Archer County, Texas.

MATERIALS REGULATED: Wheat harvesting equipment and grain originating in the quarantine area.

RESTRICTIONS: All mechanized harvesting equipment, seed conditioning equipment, grain elevators, and structures used for storing and handling wheat are required to be

OK - 4

cleaned and disinfected by removing all soil and plant debris. Disinfection must meet criteria of USDA Federal Quarantine.

KARNAL BUNT IN COMMERCIAL SEED

PEST: Karnal Bunt, *Tilletia indica* Mitra.

STATES REGULATED: Arizona, California, New Mexico, and Texas.

MATERIALS REGULATED: All seed of wheat, durum wheat, and triticale; portable seed conditioning equipment; and all life stages of *Tilletia indica* Mitra.

RESTICTIONS: Seed must be analyzed as defined by USDA/APHIS/PPQ. Portable seed conditioning equipment must be cleaned and disinfected and accompanied by a state phytosanitary certificated from the state in which the equipment was cleaned and disinfected.
